

# Geometry Vocabulary

Learning target: I am learning to improve their knowledge in geometry vocabulary

Throughout this school year, you will be learning & using numerous types of words & properties in the subject of Geometry. Remembering these new words and properties, what they mean, and how to use them can be more of a challenge. At the beginning of each new unit, all students will be selecting a vocabulary word and/or a property from a hat. Once they have their word/property, they will be looking up its meaning, drawing a picture, and coming up with a way to remember this new word/property (e.g. Complementary Angles vs. Supplementary Angles: C comes before S in the alphabet, 90 comes before 180, so Complementary means 2 angles whose sum is 90 degrees, and Supplementary means 2 angles whose sum is 180 degrees). Each individual word/property will have a due date, and a presentation date.

Rubric for each assignment:

	0 points	2.5 points	5 points
<b>Title of the vocab. word/property</b>	No title is submitted	Title is written; appearance is not neat	Title is written; appearance is neat
<b>Meaning</b>	No meaning is submitted	Meaning submitted, but is not correct/accurate	Meaning submitted and is correct/accurate
<b>Picture</b>	No picture included	Picture is included; appearance is not neat	Picture is included appearance is neat
<b>Way to remember</b>	"Way to remember" clue/tip is not submitted	"Way to remember" clue/tip is submitted, but not accurate	"Way to remember" clue/tip is submitted & accurate
<b>Vocabulary Trading Card</b>	Vocabulary Trading card is not completed	Vocabulary Trading card does not have all of the requirements or not accurate	Vocabulary Trading card has all of the requirements & contains no errors.
<b>Presentation</b>	Not presented in class	Presented in class, but not accurate	Presented in class & accurate

**Total Points: 30**

Assignment & grade will be included in "Assessment" category: 75% of the total grade. There will be numerous times when students will be completing this assignment throughout each Marking Period.

\*Vocabulary words/properties should be completed using any type of presentation tool (e.g. Prezi, PowerPoint/Keynote slide, etc.) and emailed to me.

\*The trading card can be created using the website: <http://bighugelabs.com/> & selecting "Trading Cards" option (1<sup>st</sup> column; 10<sup>th</sup> row).

If there is a problem submitting it electronically, please see me.
